

Dear Hurricane Properties Investor,

I hope you're staying healthy and safe in these unprecedented times. Your investment profit has been transferred to you Bank Account. We've been anticipating a market correction for a while now, and have built our business to be resilient to tough times. We've purchased properties with high cash flow, and diversified our tenant base to include a high number of tenants on government assistance programs. We're anticipating that the economic contraction will actually help Hurricane Properties by lowering the cost of real estate, allowing us to purchase future properties at a deep discount. Below are progress pictures from a current full-gut rehab on Southwick Street in Chicopee.

Sincerely,

A handwritten signature in blue ink that reads "Patrick Burand".
