

Dear Hurricane Properties Investor,

Your investment profit has been transferred to your Bank account. As always, we are expanding our portfolio by acquiring more properties. Below is a picture of a 4-unit building, 988 Chicopee Street in Chicopee, which we purchased this summer. The real estate market is in a period of rapid change due to Federal Reserve's aggressive increase of interest rates. For experienced investors with a solid network of lenders like ourselves, this is exciting because it means there will be opportunities for deals as prices come down and as less experienced investors are scared out of the market.

Sincerely,

Patrick Burand
